Dear Colleagues

We are honored to invite you to the Xth Anniversary Convention of ROSOMED – Russian Society for Simulation Education in Medicine and the International Conference "**Simulation Education in Medicine: Expertise, Evolution, Innovations**". **ROSOMED-2021**", that will take place in Nizhniy Novgorod on September 16-18, 2021.

The three-day program of the event covers topics on medical simulation education and assessment, professional development and research in this field. The conference will comprise several plenary meetings along with round tables, discussion panels and practical work-shops, the contest "Innovations in medical simulation" and the exhibition of medical simulation devices and software solutions.

This year due to epidemic situation the meeting is planned as a **hybrid event** – both in presence and online. That will include plenary and break-out sessions which will be held in the Nizhny Novgorod Main Fair House - a historic 19th Century building just a few steps away from the Volga and the Oka rivers, while work-shops on simulation equipment will take place at Multidisciplinary Simulation and Accreditation Center of the Privolzhsky Medical University. For registration and abstract submission please visit 2021.rosomed.ru

We are looking forward to see you soon!

Best regards,
Maxim Gorshkov

Head of Presidium of ROSOMED

Sincerely yours,
Aleksandr Kolysh

Executive Director of ROSOMED
